

# Show Equipment Preparation Checklist

Name: \_\_\_\_\_ Date: \_\_\_\_\_

The purpose of this checklist is to make sure all equipment is properly prepared and checked for a show. This checklist does not include any checks for confirming a script is properly loaded and running. Please see the 18R2 Scripted Dry Run Checklist.

## Handheld Remotes

Please enter what type and how many of each remote (18R / 18R2). Please confirm the firmware, battery is full, backup AA batteries, firmware and that all keys / antennas exist. Also add any special notes below. Please also perform a basic physical inspection of all units to make sure there is no obvious damage.

# 18R		# 18R2		# Deadman	
Firmware Version		Battery Levels (P 1-9)		Backup AAs	
SMTPE		Control Panel		Booster / Cable	
Keys / Antennas		Notes			

## Modules

Please enter what type and how many of each module (18M / 36M). Please confirm the firmware, battery levels, backup 9V batteries, firmware and that all keys / antennas exist. Also add any special notes below. Please also perform a basic physical inspection of all units to make sure there is no obvious damage.

Please also confirm all units are in sync. To learn how to sync a unit, see [www.cobrafiringsystems.com/sync](http://www.cobrafiringsystems.com/sync)

# 18M		# 36M		All Synced	
Firmware Ver.		Battery Levels (1P9, 2P9)			
Keys / Antennas / Backup 9Vs		Notes			

## Additional Equipment

Please use the section below to describe any additional equipment such as slats, cables, further signal accessories, etc... Please perform a physical inspection of each unit. For any items such as boosters that require power, make sure the unit powers on and has new batteries.
